

# PREPAGEL gel

## Formula:

Formula of 40 grams gel;

Active Substance	: Aescin (amorphous)	0.4 g
	Diethylamine salicylate	2.0 g
Excipient	: Lavender oil, neroli oil and isopropyl alcohol	

## Pharmacological Properties:

With a special formulation in alcohol environment, Prepapel gel has antiedematous, anti-inflammatory and analgesic effect.

Aescin (amorphous) is absorbed through the skin, stops fluid accumulation in the tissue and prevents swelling. Local swellings due to hits and blows are immediately eliminated. Salicylic acid component enhance the anti-inflammatory effect and is completely effective on relieving significant pain.

Prepapel gel is transparent and absorbed quickly.

## Indications:

As antiexudative, anti-flogistic and analgesic, it is indicated for cases including crushes, bruises, distortion, hematoma and tenosynovitis, backbone pains (cervical syndrome, neck pain, lumbago, sciatic).

## Contraindications:

It is contraindicated for the patients who are hypersensitive to any of the ingredients and for children less than 2 years of age as well as for infants.

## Special Warnings and Precautions for Use:

Do not apply into open wounds and skin under beam therapy.

## Side Effects / Advers Effects:
